Presenters

We are your neighbours at Brightlane!

Marc Lijour, Savoir-faire Linux

Business Digitization Consultant helping organizations use technology to make their lives easier and their business more impactful.

Other Board & Advisory roles @ ICTC, ColliderX, Toronto French Business Network, Techweek, Prepr

Daniel Dico, OERP Canada

Founder @ OERP Canada and Consultant
Odoo expert

Agenda

This [special session at Brightlane](#) of the Odoo Toronto meetup group has 2 main objectives:

- 1 Introducing the Brightlane community to our work with Business Digitization and why we use Odoo
- 2 Presenting the Odoo community

Digitization: our #1 business challenge

Troubling facts:

- Canada gets a D mark on productivity
- 40% of Ontario businesses lack an Internet presence
- Adoption of technology is slow

How can technology help?

Automate, Assist, Amplify

Why aren't we there yet?

- Complexity

Why aren't we there yet?

- Complexity
- Cost

Why aren't we there yet?

- Complexity
- Cost
- Lack of choice

Why aren't we there yet?

- Complexity
- Cost
- Lack of choice
- Long and cumbersome implementation process

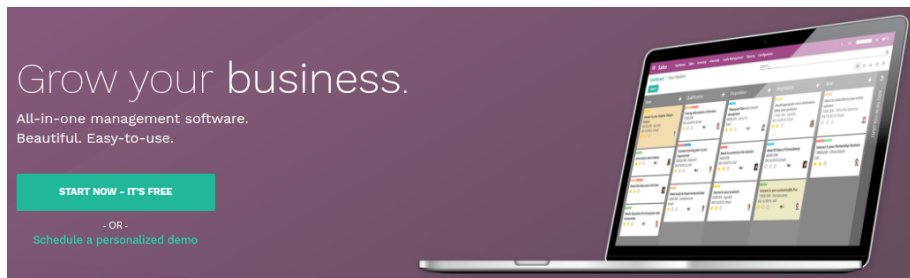

A business owner conundrum

How do I choose between

- a complex system that does everything but expensive in terms of raw dollars and time to implement?
- smarter and leaner systems very good in their niche, but exponentially difficult to integrate to fit the business needs?

A Short Introduction to Odoo

Odoo in a few words

A promotional banner for Odoo. The background is a solid dark purple. On the left, the text "Grow your business." is written in a large, white, sans-serif font. Below it, in a smaller white font, are the phrases "All-in-one management software." and "Beautiful. Easy-to-use." Further down is a bright green rectangular button with the white text "START NOW - IT'S FREE". Below the button, centered, is the text "- OR -" followed by "Schedule a personalized demo" in a smaller white font. On the right side of the banner is a high-angle photograph of a laptop. The laptop screen displays the Odoo web application interface, which features a dashboard with various charts, tables, and navigation menus in shades of purple, white, and grey.

Grow your business.

All-in-one management software.
Beautiful. Easy-to-use.

START NOW - IT'S FREE

- OR -
Schedule a personalized demo

A Short Introduction to Odoo

Value Proposition

A unique value proposition

Everything you need within a top notch user experience.

The **open source model of Odoo** has allowed us to leverage thousands of developers and business experts to build hundreds of apps in just a few years.

With strong technical foundations, Odoo's framework is unique. It provides **top notch usability that scales across all apps**.

Usability improvements made on Odoo will automatically apply to all of our fully integrated apps.

That way, Odoo evolves much faster than any other solution.
